

The New Jersey "Do Not Call" statute is a shining example of the course all U.S. Legislation should take. I'd like to remind the FCC that it is an agency of the people of the United States--not a protectorate merely of the business sector--and serves at the will of the people of the United States. Do not tamper with New Jersey legislation; instead, press to modify the National "Do Not Call" law to emulate that of New Jersey. Clearly, that is what the population of this country wants and needs.
